

INEKE DEBO

More than just a designer

INEKE DEBO

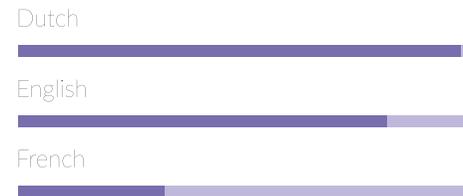

Hi, I'm Ineke Debo, a graphic designer and digital artist. My goal in life is to create things and love what I'm doing. My passions lie with creating custom designs that fit my clients needs. Being able to see a smile on their faces is what I live for! By day I work as a graphic designer, by night I work on personal projects like creating costumes or props and sketch things.

I am a creative, open minded and studious graphic designer. I am not afraid of challenges, on the contrary. I see difficulties as an opportunity to learn and grow in different areas. I take responsibility for every task and want to complete it perfectly. I take enough time for all design phases: from analysis to developing an idea. That is why I am often described as "perfectionistic".
